

Killing A King The Assassination Of Yitzhak Rabin And The Remaking Of Israel

Yeah, reviewing a books Killing A King The Assassination Of Yitzhak Rabin And The Remaking Of Israel could accumulate your near connections listings. This is just one of the solutions for you to be successful. As understood, endowment does not recommend that you have astonishing points.

Comprehending as with ease as concurrence even more than supplementary will allow each success. neighboring to, the revelation as with ease as keenness of this Killing A King The Assassination Of Yitzhak Rabin And The Remaking Of Israel can be taken as competently as picked to act.

The Palestinian People Baruch Kimmerling 2009-07-01 In a timely reminder of how the past informs the present, Baruch Kimmerling and Joel Migdal offer an authoritative account of the history of the Palestinian people from their modern origins to the Oslo peace process and beyond. Palestinians struggled to create themselves as a people from the first revolt of the Arabs in Palestine in 1834 through the British Mandate to the impact of Zionism and the founding of Israel. Their relationship with the Jewish people and the State of Israel has been fundamental in shaping that identity, and today Palestinians find themselves again at a critical juncture. In the 1990s cornerstones for peace were laid for eventual Palestinian-Israeli coexistence, including mutual acceptance, the renunciation of violence as a permanent strategy, and the establishment for the first time of Palestinian self-government. But the dawn of the twenty-first century saw a reversion to unmitigated hatred and mutual demonization. By mid-2002 the brutal violence of the Intifada had crippled Palestine's fledgling political institutions and threatened the fragile social cohesion painstakingly constructed after 1967. Kimmerling and Migdal unravel what went right--and what went wrong--in the Oslo peace process, and what lessons we can draw about the forces that help to shape a people. The authors present a balanced, insightful, and sobering look at the realities of creating peace in the Middle East.

Surprise, Kill, Vanish Annie Jacobsen 2019-05-14 From Pulitzer Prize finalist Annie Jacobsen, the untold USA Today bestselling story of the CIA's secret paramilitary units. Surprise . . . your target. Kill . . . your enemy. Vanish . . . without a trace. When diplomacy fails, and war is unwise, the president calls on the CIA's Special Activities Division, a highly-classified branch of the CIA and the most effective, black operations force in the world. Originally known as the president's guerrilla warfare corps, SAD conducts risky and ruthless operations that have evolved over time to defend America from its enemies. Almost every American president since World War II has asked the CIA to conduct sabotage, subversion and, yes, assassination. With unprecedented

access to forty-two men and women who proudly and secretly worked on CIA covert operations from the dawn of the Cold War to the present day, along with declassified documents and deep historical research, Pulitzer Prize finalist Annie Jacobsen unveils -- like never before -- a complex world of individuals working in treacherous environments populated with killers, connivers, and saboteurs. Despite Hollywood notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy machine. Written with the pacing of a thriller, *Surprise, Kill, Vanish* brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual challenge of not giving up hope that define paramilitary and intelligence work. Jacobsen's exclusive interviews -- with members of the CIA's Senior Intelligence Service (equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the world -- reveal, for the first time, the enormity of this shocking, controversial, and morally complex terrain. Is the CIA's paramilitary army America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal.

Finding Oneself in the Other G. A. Cohen 2013 This is the second of three volumes of posthumously collected writings of G. A. Cohen, who was one of the leading, and most progressive, figures in contemporary political philosophy. This volume brings together some of Cohen's most personal philosophical and nonphilosophical essays, many of them previously unpublished. Rich in first-person narration, insight, and humor, these pieces vividly demonstrate why Thomas Nagel described Cohen as a "wonderful raconteur." The nonphilosophical highlight of the book is Cohen's remarkable account of his first trip to India, which includes unforgettable vignettes of encounters with strangers and reflections on poverty and begging. Other biographical pieces include his valedictory lecture at Oxford, in which he describes his philosophical development and offers his impressions of other philosophers, and "Isaiah's Marx, and Mine," a tribute to his mentor Isaiah Berlin. Other essays address such topics as the truth in "small-c conservatism," who can and can't condemn terrorists, and the essence of bullshit. A recurring theme is finding completion in relation to the world of other human beings. Engaging, perceptive, and empathetic, these writings reveal a more personal side of one of the most influential philosophers of our time.

Eichmann in Jerusalem Hannah Arendt 1970

A Death in Jerusalem Kati Marton 2011-11-23 On the evening of September 17, 1948, a car carrying Count Folke Bernadotte, the first United Nations-appointed mediator in the Middle East, traveled up a narrow Jerusalem street. As the car shifted gears for the climb toward the New City, an Israeli Army jeep nosed into the road, forcing Bernadotte's car and the two following him to come to a full stop. From the jeep sprang three uniformed men clutching automatic weapons. In a moment that set the stage for a legacy of violence that has since characterized Arab-Israeli negotiations, Count Bernadotte was shot six times and killed. The assassins were never brought to justice. *A Death in Jerusalem* reveals the forces behind this assassination, the passion that first dictated the tactics of terrorism in Israel and that continue to shape the thinking and actions of those even now determined to block accommodation with the Palestinians. At its birth in 1948, the State of Israel was endangered as much by a fratricidal war

between Jewish moderates and extremists as it was by the invading armies of its Arab neighbors. In the first test of its authority, the fledgling United Nations forged a temporary truce between Arabs and Jews and dispatched Count Bernadotte to negotiate a permanent peace. A Swede with a reputation for skillful negotiations with the Nazis for the release of prisoners, including Jewish concentration-camp victims, Bernadotte had seemed the ideal choice for mediator. But he was dangerously unversed in the Israeli underground's passionate visions of a homeland restored to its biblical geographical proportions. To the Stern Gang, led by future Israeli Prime Minister Yitzhak Shamir, any concession of land was as threatening to Israel's integrity as the Arabs' invading armies. And the Sternists did not trust Count Bernadotte, whom they saw as threatening Israel's claim to the holy city of Jerusalem. As Bernadotte prepared his plan for the allocation of disputed territory, the Stern Gang plotted his murder. Drawing on previously untapped sources, including Bernadotte's family and former Stern Gang members, Kati Marton tells the vivid and haunting story of what propelled the Sternists, how they achieved their goal, and how and why the assassins were shielded from prosecution.

The Founding Fathers of Zionism Benzion Netanyahu 2012 Presents the biographies of Zionist leaders Leo Pinsker, Theodor Herzl, Max Nordau, Israel Zangwill, and Ze'ev Jabotinsky, whose devotion to the movement culminated in the establishment of the state of Israel.

Rise and Kill First Ronen Bergman 2019-07-09 NEW YORK TIMES BESTSELLER • The first definitive history of the Mossad, Shin Bet, and the IDF's targeted killing programs, hailed by The New York Times as "an exceptional work, a humane book about an incendiary subject." WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist • The New York Times Book Review • BBC History Magazine • Mother Jones • Kirkus Reviews The Talmud says: "If someone comes to kill you, rise up and kill him first." This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood in 1948, protecting the nation from harm has been the responsibility of its intelligence community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and military analyst Ronen Bergman—praised by David Remnick as "arguably [Israel's] best investigative reporter"—offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare cooperation of many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country's military and intelligence services: the IDF (Israel Defense Forces), the Mossad (the world's most feared intelligence agency), Caesarea (a "Mossad within the Mossad" that carries out attacks on the highest-value targets), and the Shin Bet (an internal security service that

implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and thousands of files to which Bergman has gotten exclusive access over his decades of reporting, *Rise and Kill First* brings us deep into the heart of Israel's most secret activities. Bergman traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel's targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the entire world. "A remarkable feat of fearless and responsible reporting . . . important, timely, and informative."—John le Carré

Killing a King Dan Efron 2016-10-04 One of the New York Times's 100 Notable Books of the Year.

Fateful Triangle Noam Chomsky 1999 Contents Foreword by Edward W. Said Preface to the Updated Edition 1. Fanning the Flames 2. The Origins of the "Special Relationship" 3. Rejectionism and Accommodation 4. Israel and Palestine: Historical Backgrounds 5. Peace for Galilee 6. Aftermath 7. The Road to Armageddon 8. The Palestinian Uprising 9. "Limited War" in Lebanon 10. Washington's "Peace Process" Index An Excerpt from *Fateful Triangle*, Updated Edition For some time, I've been compelled to arrange speaking engagements long in advance. Sometimes a title is requested for a talk scheduled several years ahead. There is, I've found, one title that always works: "The current crisis in the Middle East." One can't predict exactly what the crisis will be far down the road, but that there will be one is a fairly safe prediction. That will continue to be the case as long as basic problems of the region are not addressed. Furthermore, the crises will be serious in what President Eisenhower called "the most strategically important area in the world." In the early post-War years, the United States in effect extended the Monroe Doctrine to the Middle East, barring any interference apart from Britain, assumed to be a loyal dependency and quickly punished when it occasionally got out of hand (as in 1956). The strategic importance of the region lies primarily in its immense petroleum reserves and the global power accorded by control over them; and, crucially, from the huge profits that flow to the Anglo-American rulers, which have been of critical importance for their economies. It has been necessary to ensure that this enormous wealth flows primarily to the West, not to the people of the region. That is one fundamental problem that will continue to cause unrest and disorder. Another is the Israel-Arab conflict with its many ramifications, which have been closely related to the major U.S. strategic goal of dominating the region's resources and wealth. For many years, it was claimed the core problem was Soviet subversion and expansionism, the reflexive justification for virtually all policies since the Bolshevik takeover in Russia in 1917. That pretext having

The Day of the Jackal Frederick Forsyth 2012-09-04 THE CLASSIC THRILLER FROM #1 NEW YORK TIMES BESTSELLING AUTHOR FREDERICK FORSYTH "The Day of the Jackal makes such comparable books such as *The Manchurian Candidate* and *The Spy Who Came in from the Cold* seem like Hardy Boy mysteries."—The New York Times *The Jackal*. A tall, blond Englishman with opaque, gray eyes. A killer at the top of his profession. A man unknown to any secret service in the world. An assassin with a contract to kill the world's most heavily guarded man. One man with a rifle who can change the course of history. One man whose mission is so secretive not even his

employers know his name. And as the minutes count down to the final act of execution, it seems that there is no power on earth that can stop the Jackal.

The Assassins Bernard Lewis 2008-08-05 From a master historian, the definitive account of history's first terrorists An offshoot of the Ismaili Shi'ite sect of Islam, the Assassins were the first group to make systematic use of murder as a political weapon. Established in Iran and Syria in the eleventh and twelfth centuries, they aimed to overthrow the existing Sunni order in Islam and replace it with their own. They terrorized their foes with a series of dramatic murders of Islamic leaders, as well as of some of the Crusaders, who brought their name and fame back to Europe. Professor Lewis traces the history of this radical group, studying its teachings and its influence on Muslim thought. Particularly insightful in light of the rise of the terrorist attacks in the U.S. and in Israel, this account of the Assassins--whose name is now synonymous with politically motivated murderers--places recent events in historical perspective and sheds new light on the fanatic mind.

Striking Back Aaron J. Klein 2007-01-09 The first full account, based on access to key players who have never before spoken, of the Munich Massacre and the Israeli response—a lethal, top secret, thirty-year-long antiterrorism campaign to track down the killers. 1972. The Munich Olympics. Palestinian members of the Black September group murder eleven Israeli athletes. Nine hundred million people watch the crisis unfold on television, witnessing a tragedy that inaugurates the modern age of terror and remains a scar on the collective conscience of the world. Back in Israel, Prime Minister Golda Meir vows to track down those responsible and, in Menachem Begin's words, “run these criminals and murderers off the face of the earth.” A secret Mossad unit, code named Caesarea, is mobilized, a list of targets drawn up. Thus begins the Israeli response—a mission that unfolds not over months but over decades. The Mossad has never spoken about this operation. No one has known the real story. Until now. Award-winning journalist Aaron Klein's incisive and riveting account tells for the first time the full story of Munich and the Israeli counterterrorism operation it spawned. With unprecedented access to Mossad agents and an unparalleled knowledge of Israeli intelligence, Klein peels back the layers of myth and misinformation that have permeated previous books, films, and magazine articles about the “shadow war” against Black September and other terrorist groups. Spycraft, secret diplomacy, and fierce detective work abound in a story with more drama than any fictional thriller. Burning questions are at last answered, including who was killed and who was not, how it was done, which targets were hit and which were missed. Truths are revealed: the degree to which the Mossad targeted nonaffiliated Black September terrorists for assassination, the length and full scope of the operation (far greater than previously suspected), retributive acts against Israel, and much more. Finally, Klein shows that the Israeli response to Munich was not simply about revenge, as is popularly believed. By illuminating the tactical and strategic purposes of the Israeli operation, Striking Back allows us to draw profoundly relevant lessons from one of the most important counterterrorism campaigns in history.

Six Days Jeremy Bowen 2013-12-03 Suicide attacks on Israelis, bombings, assassinations, and bloodshed in Jerusalem, Gaza, and the West Bank dominate the news from the Middle East. It is the most troubled region on earth. At its heart is the conflict between Palestinians and Israelis - and the legacy of six days of war in 1967.

After the state of Israel emerged from war in 1948, both sides knew more battles were coming. In June 1967, years of slow-burning tension exploded. In six extraordinary days, Israel destroyed the armed forces of Egypt, Jordan, and Syria. But far from bringing peace, as many Israelis hoped, their stunning victory turned into a curse. From the initial battle order issued to the Israeli air force on Monday June 5, 1967 to the final ceasefire on the evening of Saturday the 10th, the Six-Day War was a riveting human drama. Building on his first-hand experience of the region after his five years as the BBC's Middle East Correspondent, as well as extensive original research, Jeremy Bowen presents a compelling new history of the conflict. Six Days recreates day by day, hour by hour, the bullying and brinkmanship that led four nations to war, interweaving testimonies of combatants from all sides in a seamless narrative. A rigorous and original piece of modern history is as vivid as fiction, Six Days not only sheds new light on one of the key conflicts of the twentieth century, it explains much about the Middle East and the problems the region still faces today.

The Israeli Mind Alon Gratch 2015-09-01 Israelis are bold and visionary, passionate and generous. But they can also be grandiose and self-absorbed. Emerging from the depths of Jewish history and the drama of the Zionist rebellion against it, they have a deeply conflicted identity. They are willing to sacrifice themselves for the collective, but also to sacrifice that very collective for a higher, and likely unattainable, ideal. Resolving these internal conflicts and coming to terms with the trauma of the Holocaust are imperative to Israel's survival as a nation and to the stability of the world. Alon Gratch, a clinical psychologist whose family has lived in Israel for generations, is uniquely positioned to confront these issues. Like the Israeli psyche that Gratch details, *The Israeli Mind* is both intimate and universal. Intelligent and forthright, compassionate but sometimes maddening, it is an utterly compelling read. Drawing on a broad cultural and historical canvas, and weaving in the author's personal and professional experience, *The Israeli Mind* presents a provocative, first-hand portrait of the Israeli national character.

The Ethnic Cleansing of Palestine Ilan Pappé 2007-09-01 The book that is providing a storm of controversy, from 'Israel's bravest historian' (John Pilger) Renowned Israeli historian, Ilan Pappé's groundbreaking book revisits the formation of the State of Israel. Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East.

An Innocent Bystander Julie Salamon 2019-06-11 The definitive story of one American family at the center of a single, shocking act of international terrorism that "manages to capture the essence of the Israeli-Palestinian conflict" (Dan Ephron). On October 3, 1985, Leon Klinghoffer, a disabled Jewish New Yorker, and his wife boarded the *Achille Lauro* to celebrate their 36th wedding anniversary with a Mediterranean cruise. Four days later, four Palestinian fedayeen hijacked the Italian luxury liner and took the passengers and crew hostage. Leon Klinghoffer was shot in the head, his body and

wheelchair thrown overboard. His murder became a flashpoint in the intractable struggle between Israelis and Arabs and gave Americans a horrifying preview of what it means when terrorism hits home. In this richly reported book, drawing on multiple perspectives, Julie Salamon dispels the mythology that has grown around that shattering moment. What transpired on the Achille Lauro left the Klinghoffer family in the grip of irredeemable sorrow, while precipitating tragic reverberations for the wives and sons of Abu al-Abbas, the Palestinian mastermind behind the hijacking, and the family of Alex Odeh, a Palestinian-American murdered in Los Angeles in a brutal act of retaliation. Through intimate interviews with almost all living participants, including one of the hijackers, Julie Salamon brings alive the moment-by-moment saga of the hijacking and the ensuing U.S.-led international manhunt; the diplomatic wrangling between the United States, Egypt, Italy, and Israel; the long agonizing search for justice; and the inside story of the controversial opera about the Klinghoffer tragedy that provoked a culture war. *An Innocent Bystander* is a masterful work of journalism that moves between the personal and the global with the pace of a geopolitical thriller and the depth of a psychological drama. Throughout lies the tension wrought by terrorism and its repercussions today.

The Settlers Gadi Taub 2011-09-01 Gadi Taub places the controversy surrounding Jewish settlements in the West Bank into perspective, arguing that the core issue is a struggle over the meaning of Zionism. He charts the evolution of the settler ideology & how the majority of Israeli citizens have responded.

Vengeance George Jonas 2005-12 Discloses the Israeli plan to assassinate the known terrorist leaders responsible for the Munich massacre of Israeli athletes and chronicles the story of the hit-squad's leader, a Mossad assassin morally destroyed by his mission. Reprint. 175,000 first printing. (Tie-in to the Universal Pictures, DreamWorks film, written by Tony Kushner, directed by Steven Spielberg, releasing Winter 2005, starring Eric Bana, Daniel Craig, & Geoffrey Rush) (History - General)

Killing a King: The Assassination of Yitzhak Rabin and the Remaking of Israel Dan Ephron 2015-10-19 Winner of the Los Angeles Times Book Prize in History and one of the New York Times's 100 Notable Books of the Year. The assassination of Israeli Prime Minister Yitzhak Rabin remains the single most consequential event in Israel's recent history, and one that fundamentally altered the trajectory for both Israel and the Palestinians. In *Killing a King*, Dan Ephron relates the parallel stories of Rabin and his stalker, Yigal Amir, over the two years leading up to the assassination, as one of them planned political deals he hoped would lead to peace, and the other plotted murder. "Carefully reported, clearly presented, concise and gripping," It stands as "a reminder that what happened on a Tel Aviv sidewalk 20 years ago is as important to understanding Israel as any of its wars" (Matti Friedman, *The Washington Post*).

A New Voice for Israel Jeremy Ben-Ami 2011-07-19 Many Americans who care about Israel's future are questioning whether the hard-line, uncritical stances adopted by many traditional pro-Israel advocates really serve the country's best interests over the long-term. Moderate Jeremy Ben-Ami, founder of J Street, the new pro-Israel, pro-peace political movement, punctures many of the myths that have long guided our understanding of the politics of the American Jewish community and have been fundamental to how pro-Israel advocates have pursued their work. These myths include: - that leaders of established Jewish organizations speak for all Jewish

Americans when it comes to Israel - that being pro-Israel means you cannot support creation of a Palestinian state - that American Jews vote for candidates based largely on their support of Israel - that talking peace with your enemies demonstrates weakness - that allying with neoconservatives and evangelical Christians is good for Israel and good for the Jewish community. Ben-Ami, whose grandparents were first-generation Zionists and founders of Tel Aviv, tells the story of his own evolution toward a more moderate viewpoint. He sketches a new direction for both American policy and the conduct of the debate over Israel in the American Jewish community.

The Holocaust in the Soviet Union Yitzhak Arad 2020-04-27

Churchill's Promised Land David Makovsky 2007-01-01 A comprehensive examination of Churchill's complex political, diplomatic, and intellectual response to Zionism"

This Burning Land Greg Myre 2011-03-29 A profoundly different way of looking at the Israeli-Palestinian conflict Reporting from Jerusalem for The New York Times and Fox News respectively, Greg Myre and Jennifer Griffin, witnessed a decades-old conflict transformed into a completely new war. The West has learned a lot about asymmetrical war in the past decade. At the same time, many strategists have missed that the Israeli-Palestinian conflict has become one of them. This book shows the importance of applying these hard-won lessons to the longest running, most closely watched occupation and uprising in the world. The entire conflict can seem irrational -- and many commentators see it that way. While raising their own family in Jerusalem at the height of the violence, Myre and Griffin look at the lives of individuals caught up in the struggles to reveal how these actions make perfect sense to the participants.

Extremism can become a virtue; moderation a vice. Factions develop within factions. Propaganda becomes an important weapon, and perseverance an essential defense. While the Israelis and the Palestinians have failed to achieve their goals after years of fighting, people on both sides are prepared to make continued sacrifices in the belief that they will eventually emerge triumphant. This book goes straight to the heart of the conflict: into the minds of suicide bombers and inside Israeli tanks. We hear from Palestinian informants who help the Israeli military track down and kill Palestinian militants. Israeli settlers in isolated outposts explain why they are there, and we hear the frustrations of a Palestinian farmer who has had his olive grove cut in half by Israel's security barrier Shows the important lessons that can be learned by viewing the Israeli-Palestinian conflict as an example of modern, asymmetrical war Authored by long-time reporters on the Middle East, the book provides a balanced and detailed look at the fighting based on first-hand experience and hundreds of interviews Explains how the landscape of the conflict changed and why the traditional approach to peacemaking is no longer valid With a new perspective on what's really going on in Israel and the Palestinian territories, *The Familiar War* is a book that will inform the debate on the Middle East and the future of the peace process, as well as our understanding of other conflicts around the world.

Kill Chain Andrew Cockburn 2015-03-10 An essential and page-turning narrative on the history of drone warfare by the acclaimed author of *Rumsfeld*, exploring how this practice emerged, who made it happen, and the real consequences of targeted killing Assassination by drone is a subject of deep and enduring fascination. Yet few understand how and why this has become our principal way of waging war. *Kill Chain* uncovers the real and extraordinary story; its origins in long-buried secret programs, the

breakthroughs that made UAV operations possible, the ways in which the technology works and, despite official claims, does not work. Taking the reader inside the well-guarded world of national security, the book reveals the powerful interests - military, CIA and corporate - that have led the drive to kill individuals by remote control. Most importantly of all, the book describes what has really happened when the theories underpinning the strategy -- and the multi-billion dollar contracts they spawn -- have been put to the test. Drawing on sources deep in the military and intelligence establishments, Andrew Cockburn's *Kill Chain* unveils the true effects, as demonstrated by bloody experience, of assassination warfare, a revelation that readers will find surprising as well as shocking.

Violent Separatism in Xinjiang James A. Millward 2004-01-01 This study surveys the evidence for organized, violent separatist resistance to Chinese rule in Xinjiang, a region three times the size of France located in the northwestern corner of the PRC. Since several major violent events in the 1990s, concern has risen over the possibility that a violent separatist or terrorist movement may be emerging among the Turkic Muslim population of this region. Stories in the international media have sounded this warning steadily if sporadically over the past decade, and in the aftermath of the September 11 terrorist attacks on the United States, the PRC government has publicly linked groups comprised of Uyghurs from Xinjiang to al Qaeda and other international terrorist organizations. The United States and the United Nations have agreed to some extent with China's assessment and designated one of the groups on China's terrorist list, ETIM, as an international terrorist organization. After summarizing the 250-year history of various kinds of resistance in Xinjiang, this study catalogs major violent incidents since the 1990s in Xinjiang and in the Central Asian republics. It then discusses the Uyghur groups and individuals listed as separatists or terrorists. On the basis of a critical analysis of international press reports and PRC government materials, the study concludes that while ethnic tensions in Xinjiang are indeed serious, the sense of imminent crisis commonly conveyed by these reports is exaggerated. In particular, the study notes that the frequency and severity of violence have in fact declined since the late 1990s, perhaps due to Chinese efforts at interdiction. This is the sixth publication in *Policy Studies*, a peer-reviewed East-West Center Washington series that presents scholarly analysis of key contemporary domestic and international political, economic, and strategic issues affecting Asia in a policy relevant manner.

Mossad Michael Bar-Zohar 2012-11-06 "This book tells what should have been known and isn't—that Israel's hidden force is as formidable as its recognized physical strength." — Israeli President Shimon Peres For decades, Israel's renowned security arm, the Mossad, has been widely recognized as the best intelligence service in the world. In *Mossad*, authors Michael Bar-Zohar and Nissim Mishal take us behind the closed curtain with riveting, eye-opening, boots-on-the-ground accounts of the most dangerous, most crucial missions in the agency's 60-year history. These are real Mission: Impossible true stories brimming with high-octane action—from the breathtaking capture of Nazi executioner Adolph Eichmann to the recent elimination of key Iranian nuclear scientists. Anyone who is fascinated by the world of international espionage, intelligence, and covert "Black-Ops" warfare will find *Mossad* electrifying reading. *Mossad* unveils the defining and most dangerous operations, unknown heroes, and mysterious agents of the world's most respected—and most

enigmatic—intelligence service. Here are the thrilling stories of daring top secret missions, including the capture of Adolf Eichmann, the eradication of Black September, the destruction of the Syrian nuclear facility, and the elimination of key Iranian nuclear scientists. Drawn from intensive research and exclusive interviews with Israeli leaders and Mossad operatives, this riveting history brings to life the brave agents, deadly villains, and major battlegrounds that have shaped Israel and the world at large for more than sixty years.

The Good Spy Kai Bird 2014-05-20 The Good Spy is Pulitzer Prize-winning biographer Kai Bird's compelling portrait of the remarkable life and death of one of the most important operatives in CIA history – a man who, had he lived, might have helped heal the rift between Arabs and the West. On April 18, 1983, a bomb exploded outside the American Embassy in Beirut, killing 63 people. The attack was a geopolitical turning point. It marked the beginning of Hezbollah as a political force, but even more important, it eliminated America's most influential and effective intelligence officer in the Middle East – CIA operative Robert Ames. What set Ames apart from his peers was his extraordinary ability to form deep, meaningful connections with key Arab intelligence figures. Some operatives relied on threats and subterfuge, but Ames worked by building friendships and emphasizing shared values – never more notably than with Yasir Arafat's charismatic intelligence chief and heir apparent Ali Hassan Salameh (aka "The Red Prince"). Ames' deepening relationship with Salameh held the potential for a lasting peace. Within a few years, though, both men were killed by assassins, and America's relations with the Arab world began heading down a path that culminated in 9/11, the War on Terror, and the current fog of mistrust. Bird, who as a child lived in the Beirut Embassy and knew Ames as a neighbor when he was twelve years old, spent years researching The Good Spy. Not only does the book draw on hours of interviews with Ames' widow, and quotes from hundreds of Ames' private letters, it's woven from interviews with scores of current and former American, Israeli, and Palestinian intelligence officers as well as other players in the Middle East "Great Game." What emerges is a masterpiece-level narrative of the making of a CIA officer, a uniquely insightful history of twentieth-century conflict in the Middle East, and an absorbing hour-by-hour account of the Beirut Embassy bombing. Even more impressive, Bird draws on his reporter's skills to deliver a full dossier on the bombers and expose the shocking truth of where the attack's mastermind resides today.

Lies That Matter Allan Gerson 2021-05-04 The true story of a DOJ prosecutor's complicated quest to deport Nazis: "The lessons that Mr. Gerson learns, and shares, could not be more timely." —Seth Waxman, former US Solicitor General As the son of Holocaust survivors, federal prosecutor Allan Gerson thought his professional assignment to investigate and deport those who persecuted his family and others like them would make his parents proud. But their reaction was not what he expected. This is his memoir of the experience—and the complex emotions and questions it provoked. "It takes a young attorney whose Holocaust survivor parents and uncle had to lie in order to gain admittance into the U.S. to recognize the double-edged dangers of pursuing aging Nazi functionaries with the blunt instruments of American immigration law. Can the same laws be turned against his parents and other Jews like them? Allan Gerson tells the gripping story of his two years at the Department of Justice office charged with investigating and deporting aging Nazis living quietly in our midst. His

interrogation of suspected perpetrators forces him to uncover secrets of his family and other anguished victims that he never wanted to know . . . This narrative reads like a bildungsroman, a coming of age story of a lawyer who went on to seek American legal remedies for historic crimes and injustices committed elsewhere.” —Samuel Norich, President, The Forward

Finding Home and Homeland Avinoam J. Patt 2009 An inspiring examination of young survivors of the Holocaust and their role in the creation of the state of Israel.

Zionism Milton Viorst 2016-07-19 "Viorst examines the evolution of Zionism, from its roots by serving as a cultural refuge for Europe's Jews, to [what he sees as] the cover it provides today for Israel's exercise of control over millions of Arabs in occupied territories"--Amazon.com.

Anonymous Soldiers Bruce Hoffman 2016 Draws on newly available documents from the National Archives in Britain to chronicle the historical events and key campaigns that led to the creation of Israel.

The Wall and the Gate Michael Sfard 2018-01-23 From renowned human rights lawyer Michael Sfard, an unprecedented exploration of the struggle for human rights in Israel's courts A farmer from a village in the occupied West Bank, cut off from his olive groves by the construction of Israel's controversial separation wall, asked Israeli human rights lawyer Michael Sfard to petition the courts to allow a gate to be built in the wall. While the gate would provide immediate relief for the farmer, would it not also confer legitimacy on the wall and on the court that deems it legal? The defense of human rights is often marked by such ethical dilemmas, which are especially acute in Israel, where lawyers have for decades sought redress for the abuse of Palestinian rights in the country's High Court—that is, in the court of the abuser. In *The Wall and the Gate*, Michael Sfard chronicles this struggle—a story that has never before been fully told—and in the process engages the core principles of human rights legal ethics. Sfard recounts the unfolding of key cases and issues, ranging from confiscation of land, deportations, the creation of settlements, punitive home demolitions, torture, and targeted killings—all actions considered violations of international law. In the process, he lays bare the reality of the occupation and the lives of the people who must contend with that reality. He also exposes the surreal legal structures that have been erected to put a stamp of lawfulness on an extensive program of dispossession. Finally, he weighs the success of the legal effort, reaching conclusions that are no less paradoxical than the fight itself. Writing with emotional force, vivid storytelling, and penetrating analysis, Michael Sfard offers a radically new perspective on a much-covered conflict and a subtle, painful reckoning with the moral ambiguities inherent in the pursuit of justice. *The Wall and the Gate* is a signal contribution to everyone concerned with the Israeli-Palestinian conflict and human rights everywhere.

Zionism Michael Brenner 2011 This book explores the origins of Zionism within Jewish tradition, the variety of Zionist ideologies, and the political circumstances that fostered this movement. This expanded and updated edition includes a chapter about the changes in Zionism since the founding of the State of Israel in 1948.

Head of the Mossad Shabtai Shavit 2020-09-15 Shabtai Shavit, director of the Mossad from 1989 to 1996, is one of the most influential leaders to shape the recent history of the State of Israel. In this exciting and engaging book, Shavit combines memoir with sober reflection to reveal what happened during the seven years he led what is widely

recognized today as one of the most powerful and proficient intelligence agencies in the world. Shavit provides an inside account of his intelligence and geostrategic philosophy, the operations he directed, and anecdotes about his family, colleagues, and time spent in, among other places, the United States as a graduate student and at the CIA. Shavit's tenure occurred during many crucial junctures in the history of the Middle East, including the collapse of the Soviet Union and the end of the Cold War era; the first Gulf War and Prime Minister Yitzhak Shamir's navigation of the state and the Israeli Defense Forces (IDF) during the conflict; the peace agreement with Jordan, in which the Mossad played a central role; and the assassination of Prime Minister Yitzhak Rabin. Shavit offers a broad sweep of the integral importance of intelligence in these historical settings and reflects on the role that intelligence can and should play in Israel's future against Islamist terrorism and Iran's eschatological vision. *Head of the Mossad* is a compelling guide to the reach of and limits facing intelligence practitioners, government officials, and activists throughout Israel and the Middle East. This is an essential book for everyone who cares for Israel's security and future, and everyone who is interested in intelligence gathering and covert action.

Zion Before Zionism, 1838-1880 Arnold Blumberg 2007 This book studies the interaction of the European, Turkish, and Palestinian natives for a forty-two year period, just prior to when the great Jewish immigration to Palestine began. It examines the interplay between the native Palestinian population, the essentially foreign Turkish government imposed on them, and the aggressive ambitions of Christian nations represented by their consuls. Most important of all, 1838 marks the first year in which the Turks recognized the right of foreign non-Moslems to lease property for permanent residence in a city sacred to Islam. It was to be another twelve years before the purchase of property by foreign infidels became possible at the Holy City. It was to be a full twenty years before the Turks codified a Land Registry Law in 1858. Nevertheless, the mere beginning of permanent residence at Jerusalem for foreign Jews and Christians makes 1838 a milestone year. It is, therefore, important for any study of what is today modern Israel to examine the years 1838-1880. Those crucial forty-two years form the unique and essential incubative time period without which Zionism could never have prospered in Zion.

Day of the Assassins Michael Burleigh 2021-05-27 'Written with Burleigh's characteristic brio, with pithy summaries of historical moments (he is brilliant on the Americans in Vietnam, for example) and full of surprising vignettes' – The Times 'Book of the Week' 'Brilliant and timely . . . Our world today is as dangerous and mixed-up as it has ever been. Luckily we have Michael Burleigh to help us make sense of it.' – Mail on Sunday In *Day of the Assassins*, acclaimed historian Michael Burleigh examines assassination as a special category of political violence and asks whether, like a contagious disease, it can be catching. Focusing chiefly on the last century and a half, Burleigh takes readers from Europe, Russia, Israel and the United States to the Congo,

India, Iran, Laos, Rwanda, South Africa and Vietnam. And, as we travel, we revisit notable assassinations, among them Leon Trotsky, Hendrik Verwoerd, Juvénal Habyarimana, Indira Gandhi, Yitzhak Rabin and Jamal Khashoggi. Combining human drama, questions of political morality and the sheer randomness of events, *Day of the Assassins* is a riveting insight into the politics of violence.
