Family Policy Matters Karen Bogenschneider 2003-01-30 Drawing on hundreds of studies in the last 20 years, the new edition of Family Policy Matters brings a fresh perspective to family policy, underscoring why it is needed, and outlining how policymaking should be approached. Author Karen Bogenschneider proposes a theoretical framework for conceptualizing policy issues in a way that holds the potential for overcoming controversy and identifying common ground. This new edition includes updates on the most current research, including: \*new issues that have changed the political landscape for families (e.g. strengthening marriage initiative, same-sex marriage); \*an updated section on state statutes or Governor's orders that require family impact analysis; \*a new chapter on the history of family policy in this century; \*a new appendix on how to conduct a family impact analysis; and \*two new case studies on writing family policy newsletters for state policymakers and teaching family impact analysis to the general public. \*Instructor's Manual with sample

syllabi for both undergraduate and graduate courses, suggested readings, assignments, and class activities, discussion questions, daily lesson plans, instructor insights, special presentations to enrich one's class, and PowerPoint slides. The targeted audience includes researchers interested in seeing their research and ideas acted upon in the policy world; family professionals who work to connect research and policymaking; and instructors interested in making family policy come alive for undergraduate and graduate students. This book is an ideal textbook for family policy courses.

**Taking Sides** Richard P. Halgin 2000 This debate style reader is designed to introduce students to controversies in abnormal psychology. The readings, which represent the arguments of leading psychologists and researchers, reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework. This new title will be a beneficial tool to encourage critical thinking on important issues concerning abnormal psychology.

**Deco Punk: The Spirit of the Age** Thomas a. Easton 2015-06-01 Are you ready for the next wave of Steampunk? Then it's time for something that captures the spirit of the twentieth and twenty-first centuries, an era of ebullient progress in the arts, literature, science, and technology. Call it Deco Punk, and let's rock with the bootleg Twenties and roll with the grim Thirties. It was a time of heady optimism, and-fittingly-the era when modern science fiction was born.

**Taking Sides: Clashing Views on Moral Issues** Stephen Satris 2005-07 ... 36 essays, arranged in pro and con pairs, that address 18 controversial issues in morality and moral philosophy.

**Tree Thieves** Lyndsie Bourgon 2022-06-21 A gripping investigation of the billion-dollar timber black market "and a fascinating examination of the deep and troubled relationship between people and forests" (Michelle Nijhuis, author of *Beloved Beasts*) There's a strong chance that chair you are sitting on was made from stolen lumber. In *Tree Thieves*, Lyndsie Bourgon takes us deep into the underbelly of the illegal timber market. As she traces three timber poaching cases, she introduces us to tree poachers, law enforcement, forensic wood specialists, the enigmatic residents of former logging communities, environmental activists, international timber cartels, and indigenous communities along the way. Old-growth trees are invaluable and irreplaceable for both humans and wildlife, and are the oldest living things on earth. But the morality of tree poaching is not as simple as we might think: stealing trees is a form of deeply rooted protest, and a side effect of environmental preservation and

protection that doesn't include communities that have been uprooted or marginalized when park boundaries are drawn. As Bourgon discovers, failing to include working class and rural communities in the preservation of these awe-inducing ecosystems can lead to catastrophic results. Featuring excellent investigative reporting, fascinating characters, logging history, political analysis, and cutting-edge tree science, *Tree Thieves* takes readers on a thrilling journey into the intrigue, crime, and incredible complexity sheltered under the forest canopy.

*American Corrections in Brief* Todd R. Clear 2016-01-01 A condensed, more accessible version of the best-selling corrections book on the market, *AMERICAN CORRECTIONS IN BRIEF*, 3rd Edition, introduces students to the dynamics of corrections in a way that captures their interest and encourages them to enter the field. The brief paperback format makes this book more approachable, and the well-respected author team incorporates several pedagogical elements to promote students' success. Complete with valuable career-based material, insightful guest speakers, illuminating real-world cases, and uniquely even-handed treatment of institutional and community sanctions, the text examines the U.S. correctional system from the perspectives of both the corrections worker and the offender, providing students with a well-rounded, balanced introduction to corrections.

**The Wilding of America** Charles Derber 2006-05-17 The American dream champions individualism. But at what price? In this [book, the author] chronicles the latest incidents of "wilding"--Extreme acts of self-interested violence and greed - that seem to signal an eroding of the moral landscape of American society. [The author] argues that ever-increasing individualism breeds an antisocial mentality with dangerous economic and social consequences - yet he offers a communitarian alternative that is as inspiring as it is instructive. Recent wilding events, such as the social aftermath of Hurricane Katrina, the war in Iraq, and recent government scandals, are highlighted in [this book].-Back cover.

**On Humane Governance** Richard A. Falk 1995 This book contends that the forces of late modernism are being caught between a capital-driven globalization and a territorially rooted revival of tribalism and ultra-nationalism. Its critical focus is on global structures that are producing new patterns of North/South and rich/poor domination, as well as exerting dangerous pressures on the carrying capacities of the planet. Richard Falk argues that any hopeful response to these threatening developments requires the fundamental revision of such basic ideas as sovereignty,

democracy, and security. These organizing conceptions of political life are being reshaped during this era of transition from a state-centric world of geopolitics to a more centrally guided world of geogovernance. He contends that geogovernance will have adverse consequences for the human condition unless it can be mainly constructed by transnational democratic forces animated by a vision of humane governance. This volume was written for the Global Civilization Project of the World Order Models Project (WOMP), an international group of scholars formed to think creatively about legal and political structures adequate to the needs of the modern world.

Another Now Yanis Varoufakis 2021-09-14 What would a fair and equal society actually look like? The world-renowned economist and bestselling author Yanis Varoufakis presents his radical and subversive answer in a work of speculative fiction that recalls William Morris and William Gibson The year: 2035. At a funeral for Iris, a revolutionary leftist feminist, Yango is approached by Costa, Iris's closest comrade, who urges him to carry out Iris's last wish: plough into her secret diaries to tell their story. "But", Costa insists "leave out anything that might help Big Tech replicate my technologies!" That night Yango delves into Iris's diaries. In them he discovers a chronicle of how Costa's revolutionary technologies had

unveiled an actually existing, fully democratized, postcapitalist society. Suddenly he understands Costa's obsession with the hackers trying to steal his secrets. So begins Yanis Varoufakis's extraordinary novelistic thought-experiment, where the world-famous economist offers an invigorating and deeply moving vision of an alternative reality. Another Now tells the story of Costa, a brilliant but deeply disillusioned, computer engineer, who creates a revolutionary technology that will allow the user a "glimpse of a life beyond their dreams" but will not enslave them. But an accident during one of its trial runs unveils a cosmic wormhole where Costa meets his DNA double, who is living in a 2025 very different than the one Costa is living in. In this parallel 2025 a global hi-tech uprising, begun in the wake of the collapse of 2008, has birthed a post-capitalist world in which work, money, land, digital networks and politics have been truly democratized. Banks have been eliminated, as well as predatory, data-mining digital monopolies; the gig economy is no more; and the young are free to experiment with different careers and to study "non-lucrative topics, from Sumerian pottery to astrophysics." Intoxicated, Costa travels to England to tell Iris, his old comrade, and her neighbor, Eva, a recovering banker turned neoliberal economics professor, of the parallel universe he has discovered. Costa eventually leads them back to his workshop in America where Iris and Eva meet their own doubles, and confront hard truths about themselves and the daunting political challenge that "the Other Now" presents. But, as their obsession with the Other Now deepens, time begins to run out, as the wormhole begins to deteriorate and hackers begin to unleash new attacks on Costa's technology. The trio have to make a choice: which 2025 do they want to live in? Varoufakis has been claiming for a while that we already live in postcapitalist times. That, since the 2008 crisis, capitalism has been morphing into technofeudalism. Another Now, a riveting work of speculative fiction, shows that there is a realistic, democratic alternative to the technofeudalpostcapitalist dystopia taking shape all around us. It also confronts us with the greatest question: how far are we willing to go to bring it about?

Criminal Genius James C. Oleson 2016-09-06 "This study provides some of the first empirical information about the self-reported crimes of adults with genius-level IQ scores. The study combines quantitative data about 72 different offenses with qualitative data from 44 follow-up interviews to describe nine different types of offending: violent crime, property crime, sex crime, drug crime, white-collar crime, professional misconduct, vehicular crime, justice system crime, and miscellaneous crime"--Provided

**Taking Sides: Clashing Views in Criminal Justice** Thomas J Hickey 2005-12-14 This debate-style reader introduces students to current controversies in the field of criminal justice. The readings are written by scholars and experts in the field and reflect a variety of viewpoints presented in a pro/con format. Topics include: gun control, continued criminalization of drug use, the Miranda ruling, police lineups, plea bargaining, jury nullification, the three strikes rule, and prisoner rights.

**Lady Derring Takes a Lover** Julie Anne Long 2019-02-26 A mistress. A mountain of debt. A mysterious wreck of a building. Delilah Swanpoole, Countess of Derring, learns the hard way that her husband, “Dear Dull Derring,” is a lot more interesting—and perfidious—dead than alive. It’s a devil of an inheritance, but in the grand ruins of the one building Derring left her, are the seeds of her liberation. And she vows never again to place herself at the mercy of a man. But battle-hardened Captain Tristan Hardy is nothing if not merciless. When the charismatic naval hero tracks a notorious smuggler to a London boarding house known as the Rogue’s Palace, seducing the beautiful, blue-blooded proprietress to get his man seems like a small sacrifice. They both believe love is a myth. But a desire beyond reason threatens to destroy the armor around their hearts. Now a shattering decision looms: Will Tristan betray his own code of honor...or choose a love that might be the truest thing he’s ever known?

**Criminal Behavior** Jacqueline B. Helfgott 2008-03-13 Rich in historical and contemporary theory and research, *Criminal Behavior: Theories, Typologies, and Criminal Justice* is a comprehensive core text that provides an interdisciplinary overview of criminal behavior by examining relevant crime theories, explanations of how and why crime typologies are developed, literature reviews for major crime categories, and discussions of how crime theories and crime typologies are used throughout the criminal justice process. Focusing on relevant themes and current issues, this text also looks closely at categorizations of criminal behavior, the relationship between crime and pop culture, mass media, and computer technology, and gender issues and crime. This engaging book applies theory and research to real-world criminal justice practice. **Key Features and Benefits:** Applies theory and research to concrete examples of criminal justice practice in law enforcement, public safety, courts/law, and corrections Explores real-world examples and contemporary issues—using chapter-opening vignettes, illustrative photos and graphs, boxed real-life case studies, and an interdisciplinary framework—making the text lively and engaging Views crime as a dynamic, changing phenomenon and

**American Conspiracy Theories** Joseph E. Uscinski 2014 Conspiracies theories are some of the most striking features in the American political landscape: the Kennedy assassination, aliens at Roswell, subversion by Masons, Jews, Catholics, or communists, and modern movements like Birtherism and Truththerism. But what do we really know about conspiracy theories? Do they share general causes? Are they becoming more common? More dangerous? Who is targeted and why? Who are the conspiracy theorists? How has technology affected conspiracy theorising? This book offers the first century-long view of these issues.

Crime & Politics Ted Gest 2003-08-07 Why has America experienced an explosion in crime rates since 1960? Why has the crime rate dropped in recent years? Though politicians are always ready both to take the credit for crime reduction and to exploit grisly headlines for short-term political gain, these questions remain among the most important-and most difficult to answer-in America today. In *Crime & Politics*, award-winning journalist Ted Gest gives readers the inside story of how crime policy is formulated inside the Washington beltway and state capitols, why we've had cycle after cycle of ineffective federal legislation, and where promising reforms might lead us in the future. Gest examines how politicians first made crime a national rather than a local issue, beginning with Lyndon Johnson's crime commission and the landmark anti-crime law of 1968 and continuing right up to such present-day measures as "three strikes" laws, mandatory sentencing, and community policing. Gest exposes a lack of consistent leadership, backroom partisan politics, and the rush to embrace simplistic solutions as the main causes for why Federal and state crime programs have failed to make our streets safe. But he also explores how the media aid and abet this trend by featuring lurid crimes that simultaneously frighten the public and encourage candidates to offer another round of quick-fix solutions. Drawing on extensive research and including interviews

with Edwin Meese, Janet Reno, Joseph Biden, Ted Kennedy, and William Webster, *Crime & Politics* uncovers the real reasons why America continues to struggle with the crime problem and shows how we do a better job in the future.

How Good People Make Tough Choices Rev Ed Rushworth M. Kidder 2009-11-24 Should you take a much-needed vacation or save money for the kids' education? Protect the endangered owl or maintain jobs for loggers? Have a heart-to-heart with a lying employee or fire him on the spot? All of us face ethical choices. Sometimes they're easy: One side is wrong and the other is right. But how do we handle the really tough "right vs. right" dilemmas, where each side has strong moral arguments and we can't do both? This book helps us build Ethical Fitness®—a values-based decision-making process so definitive that it's now a registered trade mark. Rushworth M. Kidder, founder of the Institute for Global Ethics, teaches us how to think for ourselves in order to resolve ethical dilemmas ranging from the intimately personal to the broadly philosophical. Unique in its approach and rich with illustrative anecdotes—updated with examples of real-world conflicts from today's political realm and from Dr. Kidder's own

observations—How Good People Make Tough Choices is an indispensable resource for spotting, understanding, and resolving our toughest decisions.

Angeles Times • San Francisco Chronicle • Chicago Tribune • New York •

Newsday • Library Journal • Publishers Weekly In a profound work that

pivots from the biggest questions about American history and ideals to the

most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Taking Sides Richard C. Monk 2000-06 This debate-style reader is designed to introduce students to controversies in crime and criminology.

The readings, which represent the arguments of leading commentators, reflect a variety of viewpoints and are staged as "pro" and "con" debates. Issues debated include definitions and causes of crimes; race, gender and the criminal justice system; criminological research and public policy; and future trends.

And the Dead Shall Rise Steve Oney 2004 Describes the 1913 murder of Atlanta factory worker Mary Phagan, the arrest of her Jewish supervisor, Leo Frank, and the abduction and lynching of Frank, offering an account of the crime, its aftermath, and long-term repercussions.
